Nigalthisai (Smart Bus Transit) - Complete Operations Test Report

Date: 8-9 Nov 2026 | Stack: React PWAs (Passenger / Conductor / Admin) + Supabase (PostgreSQL/PostGIS) + Cloudflare Quick Tunnels | Backend: https://harzcbcqcqqfkckqhuft.supabase.co (42 tables, 61 migrations + seed applied)

Live URLs (verified 200 OK on 9 Nov 2026)

App	URL	Status
Passenger	https://voices-increase-metal-munich.trycloudflare.com	200
Conductor	https://supplier-claims-ship-fine.trycloudflare.com	200
Admin	https://cheers-fax-external-throughout.trycloudflare.com	200

Note: Cloudflare quick-tunnel URLs change whenever the servers restart. Previous URL sets are listed in chat history. Test accounts: Conductor TN-MTC-8492 / TestConductor123! ; Admin admin@nigalthisai.test / TestAdmin123! (MASTER ADMIN).

1. Passenger App Tests

	Result	Evidence
nonymous session	PASS	District dropdown: 13 DB districts, no offline banner
p search (Gandhipuram, Railway)	PASS	Real seeded stops suggested
o active trip corridor)	PASS	Correct empty state: no live buses
ge	PASS	Empty state, then listed purchased ticket
EN/Tamil toggle	PASS	Full Tamil translation
nce	FAIL -> FIXED -> PASS	Was blocked requiring a trip; frontend fixed; refs FCF308F9, E1B25FE3
n (GPS denied)	PASS	Graceful permission-denied guidance
	PASS	Navigates to My Tickets
conductor start_trip	PASS	Search page: TN-49-N-1023 LIVE ACTIVE, 2/50 seats, Rs15
Rs15 (create_secure_ticket)	FAIL -> FIXED -> PASS	Was FOR UPDATE aggregate bug; v47 RPC re-applied; ticket NIG-202
Live Tracking	PASS	PAID, validity timer, 12A LIVE EN ROUTE, occupancy 2/50

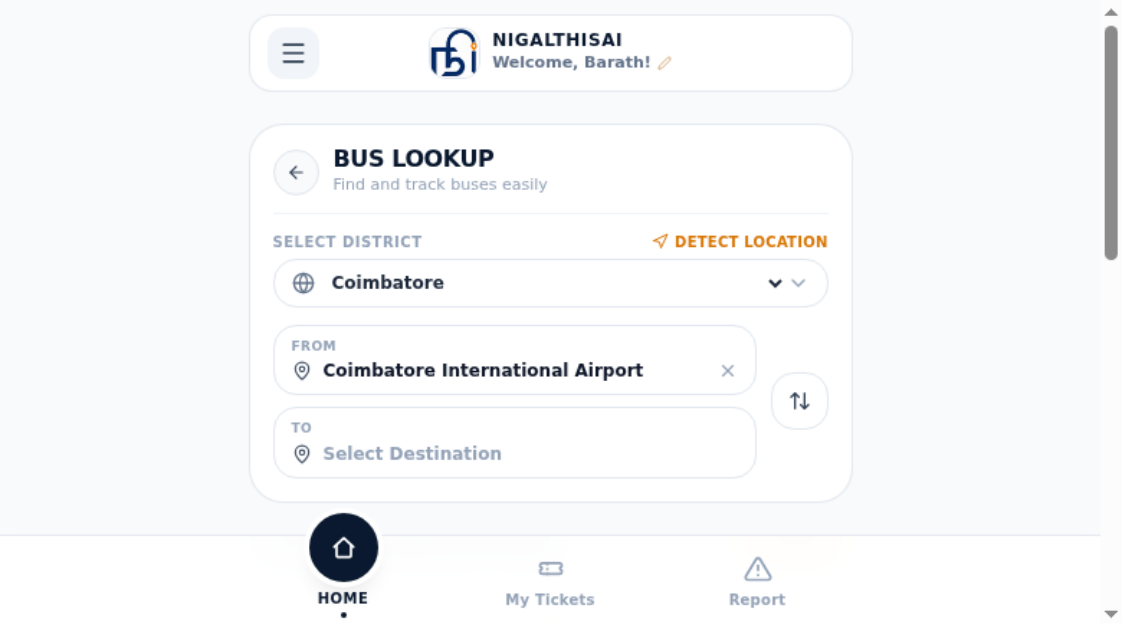

Figure 1: Passenger home (fresh, 9 Nov) - bus lookup, district selector, bottom nav.

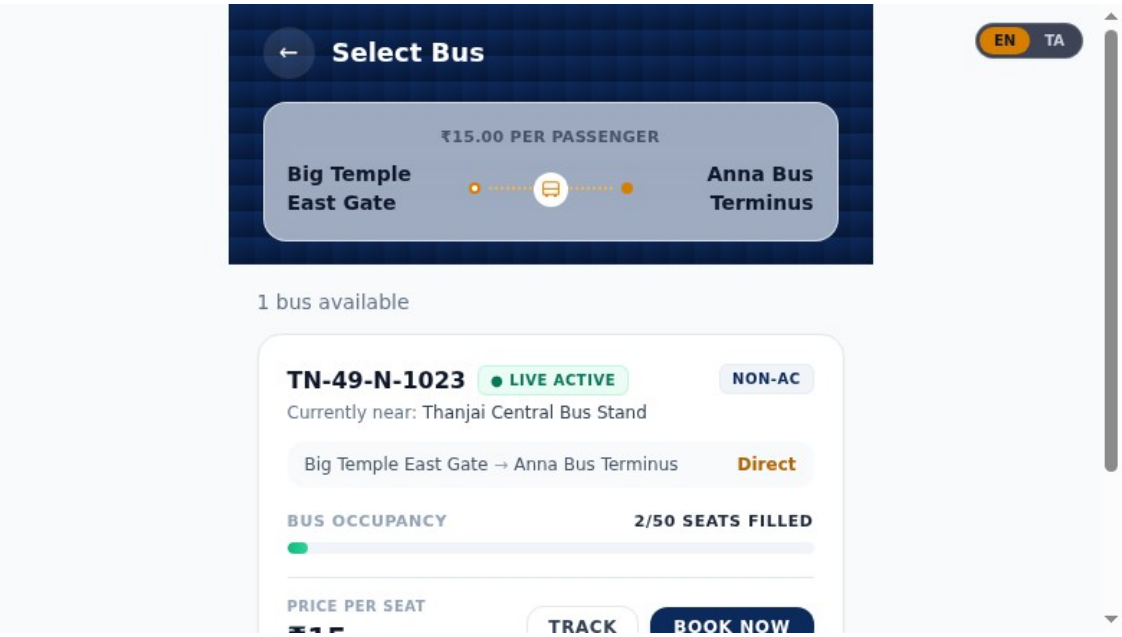

Figure 2: Passenger live search - TN-49-N-1023 LIVE ACTIVE, 2/50 seats, Rs15, TRACK / BOOK NOW.

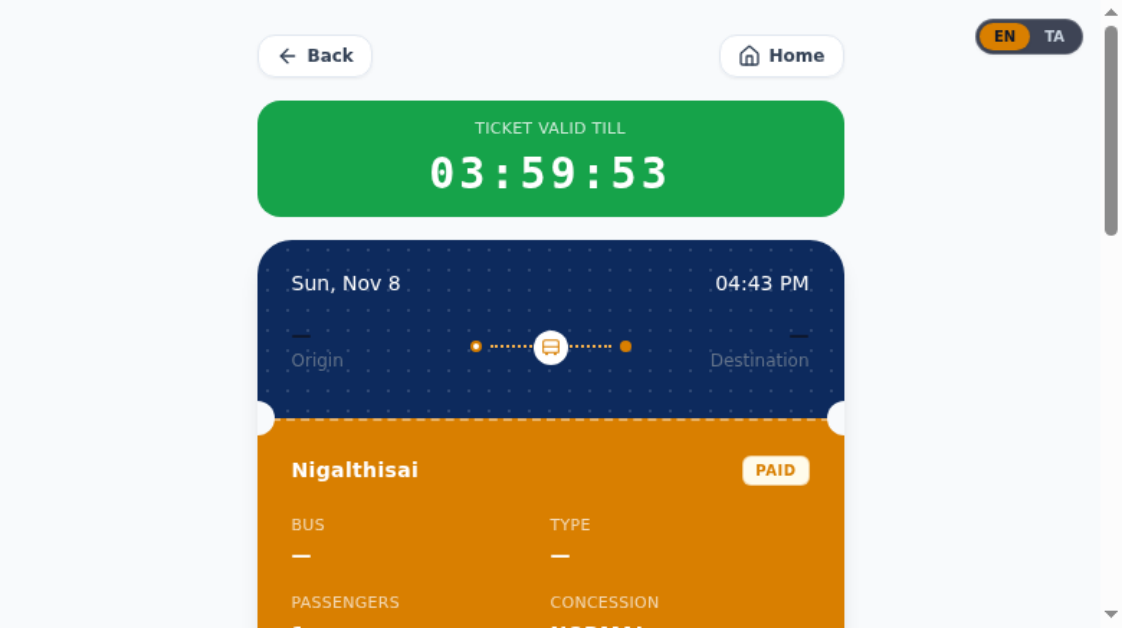

Figure 3: Ticket issued after payment - PAID Rs15, validity timer.

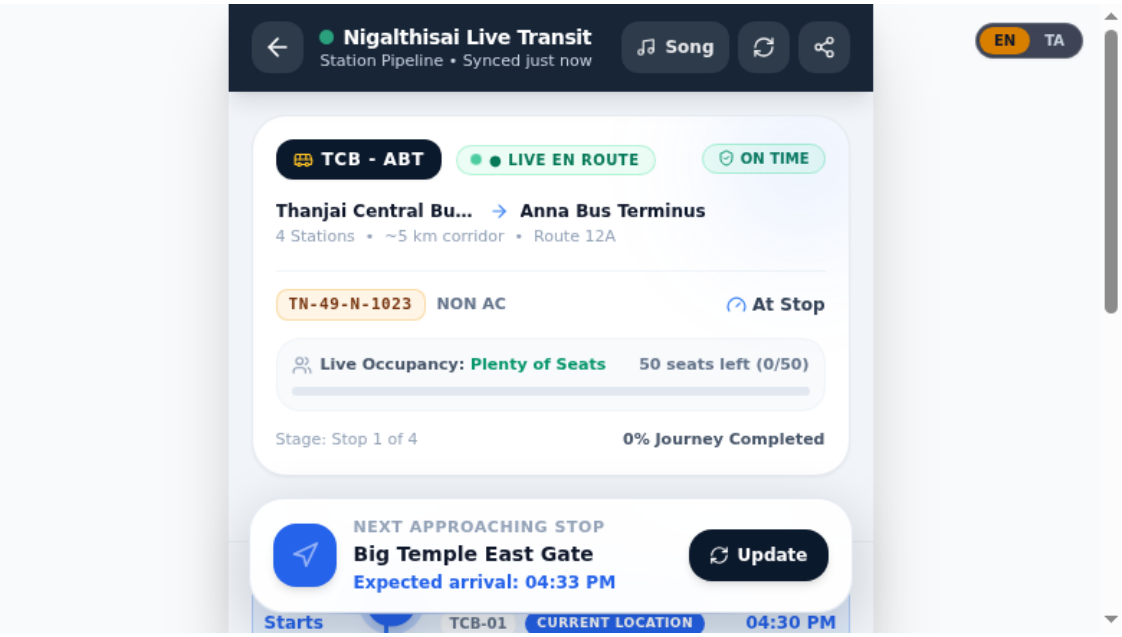

Figure 4: Live pipeline tracking - 12A LIVE EN ROUTE, occupancy, next stop.

2. Conductor App Tests

on	Result	Evidence
n (wrong credentials)	PASS	Login failed / Invalid login credentials
ected routes (/ and /scanner) unauthenticated	PASS	Both redirect to /login
login -> Dashboard	PASS	R. Elumalai, Bus TN-49-N-1023, Route 12A
t trip via bus QR (Admin QR + start_trip RPC)	PASS	SCHEDULED -> ACTIVE, started 04:28 PM
e Cash Ticket (Thanjai Central -> Anna)	PASS	PNR ETM523F22, Rs20, PAID & VALIDATED (CASH)

on	Result	Evidence
n Scanner (camera)	PASS	Camera-denied handled, Manual PNR offered
ual PNR validation (cash ticket)	FAIL -> FIXED -> PASS	Was ambiguous RPC overload; dropped duplicate; VALIDAT
ual PNR validation (passenger digital ticket)	PASS	Valid Ticket - Boarding Allowed, Rs15

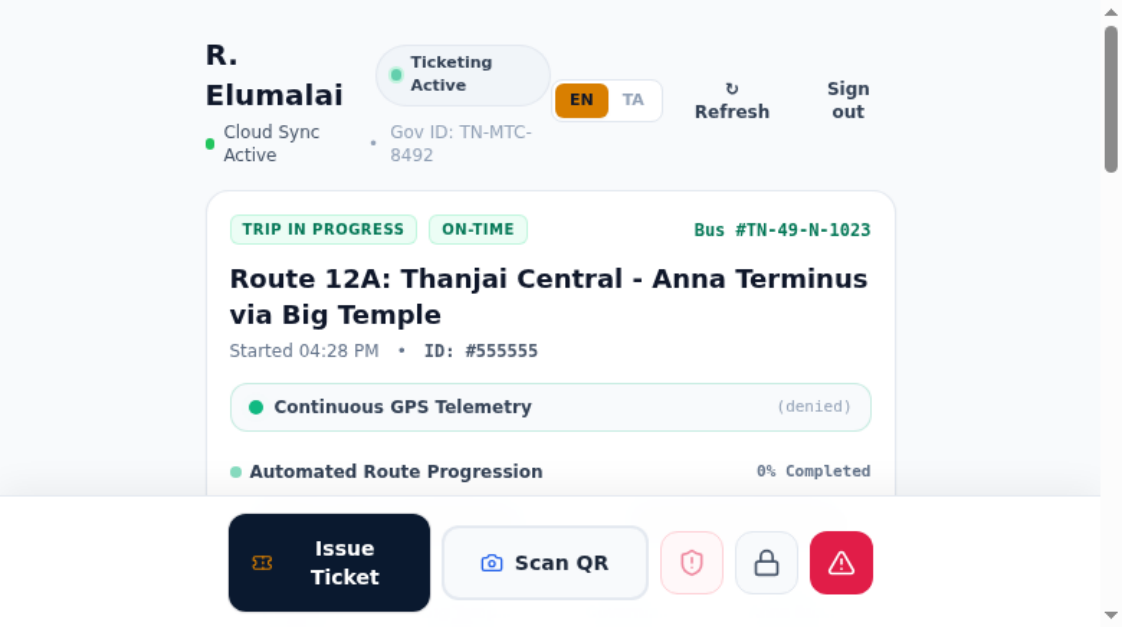

Figure 5: Conductor dashboard - TRIP IN PROGRESS, stop sequence 1-4, shift summary (today-filtered; Nov 9 shows Rs0, Nov 8 tickets were Rs35).

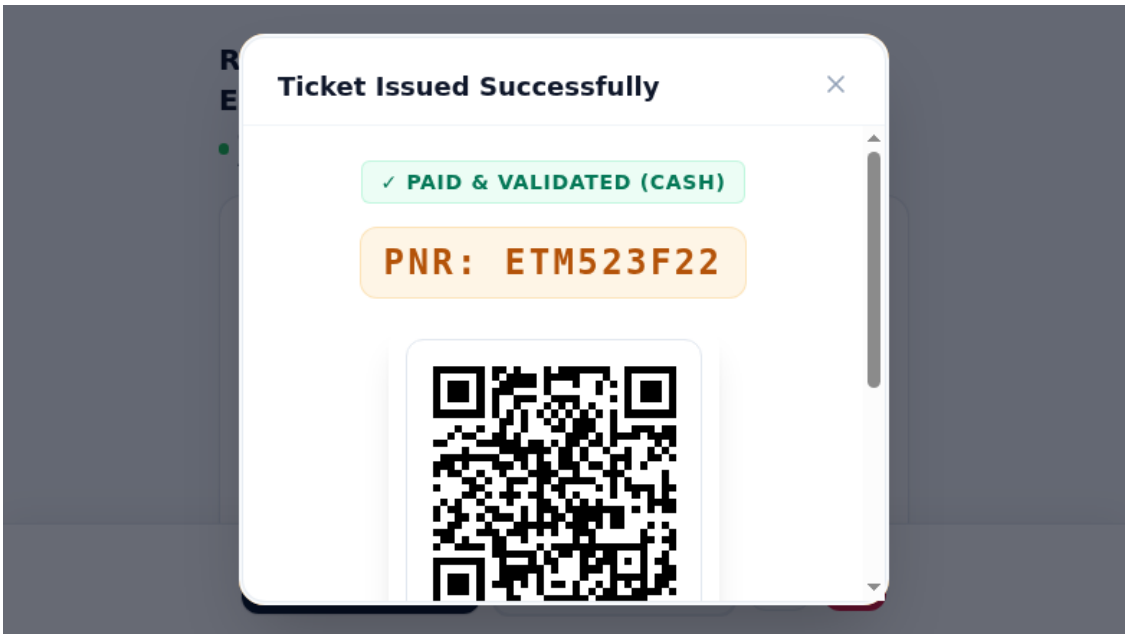

Figure 6: Cash ticket issued - PNR ETM523F22, Rs20, shift revenue Rs35.

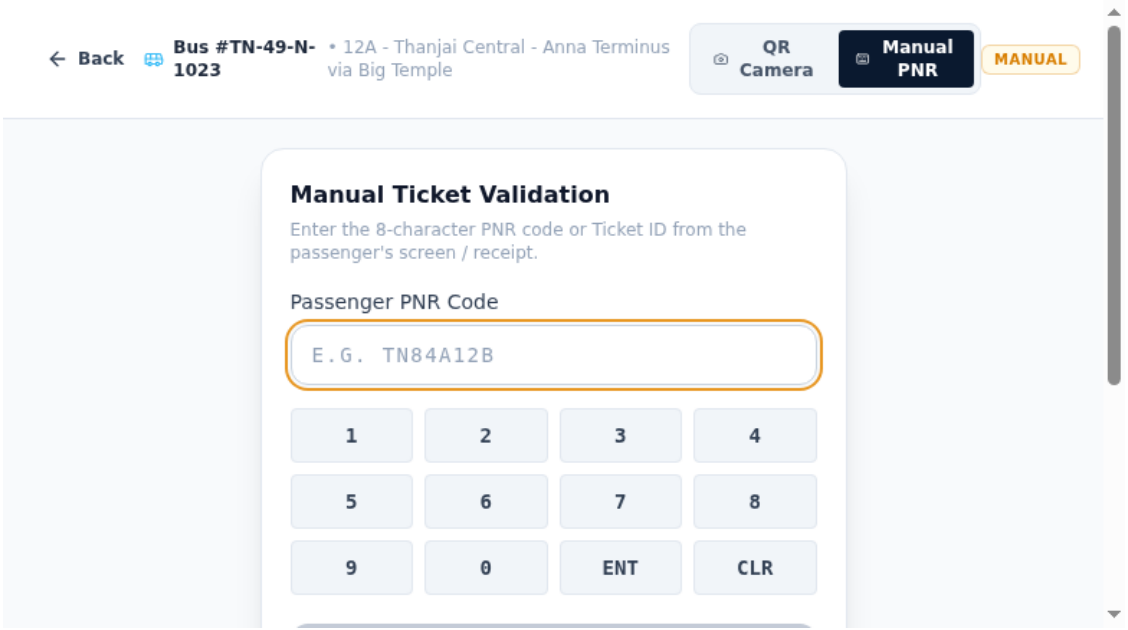

Figure 7: PNR validation - Valid Ticket, Boarding Allowed, Big Temple -> Anna, Rs15.

3. Admin App Tests

	Result	Evidence
)	PASS	Login failed / Invalid login credentials
nticated	PASS	Redirects to /login
Dashboard	PASS	Telemetry, feature toggles, all modules
	PASS	Both buses QR generated
os)	PASS	Name/code/district/coords table
01)	FAIL -> FIXED -> PASS	Was RLS INSERT policy bug; policy fixed; QA Test S
IN REVIEW	PASS	3 complaints, OPEN->IN REVIEW (after promoting te
Fares / Maintenance / Fleet / Revenue / Alerts pages	PASS	All load with live DB data, no crashes
	PASS	Nov 8: Rs35, 2 tickets, 2 journeys (Nov 9 today-filter

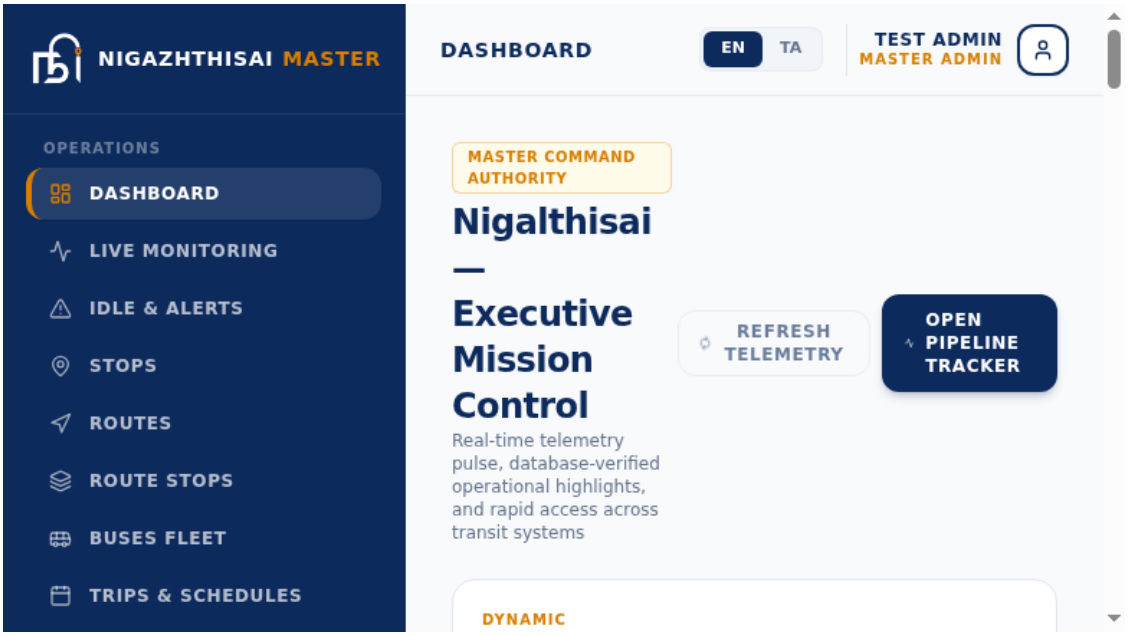

Figure 8: Admin dashboard as MASTER ADMIN - all modules, district/timeframe filters.

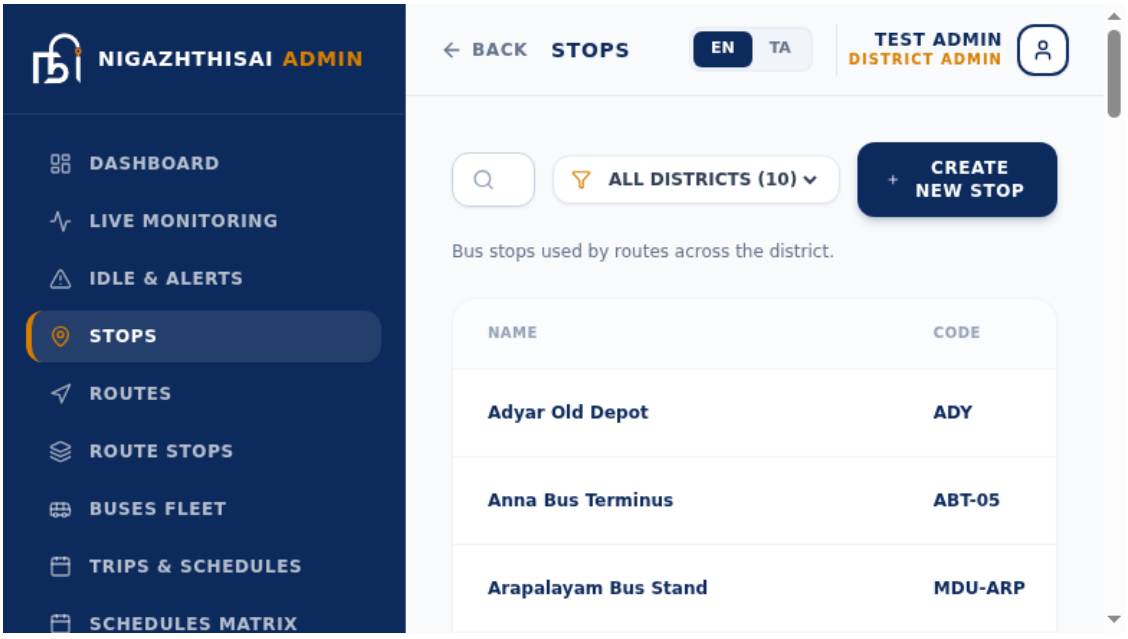

Figure 9: Admin Stops CRUD after fix - QA Test Stop created and listed.

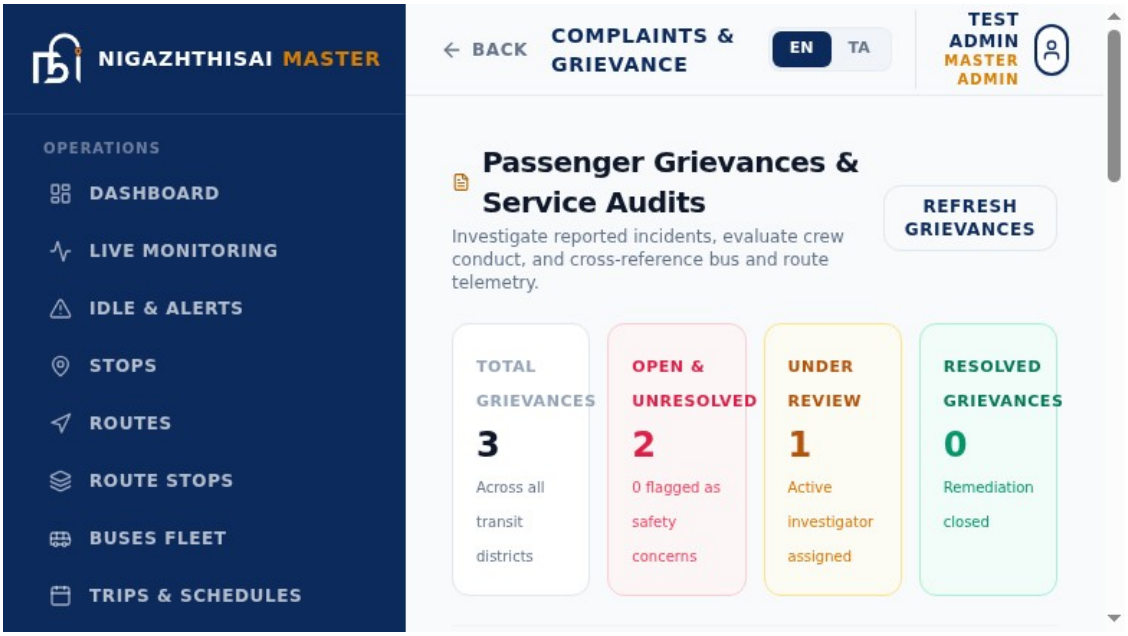

Figure 10: Admin Complaints - 3 test grievances, first moved OPEN -> IN REVIEW.

4. Bugs Found and Fixed (4)

	Fix
app (placeholder Supabase URL)	Non-blocking session hook + degraded offline banner (App.tsx, usePassengerSession.ts)
rontend threw, despite optional label)	Removed frontend throw; RPC already supported null trip_id
aggregate (max) - Postgres illegal	Re-applied fixed v47 function verbatim to DB
s (PGRST candidate error)	Dropped (uuid,text) overload in DB; kept (text,uuid)
ever insert (district_id null, UI sets none)	INSERT policy aligned with UPDATE/DELETE null-district handling (migration 61 pattern)

5. Known Issues / Not Fully Tested

g the bus; Search page flow works correctly (booking via /search). Root cause not isolated.
Transit Bus.
, not yet as repo migration files - recreate DB from repo will reintroduce them.
PS, TNSTC Pass purchase, Conductor end-trip/Pocket Mode/SOS, Admin Routes/Buses/Trips/Fares create forms, Schedules Matrix, C
Nov 8 sales exist in all-time).

6. End-to-End Chain Verified

Admin generates bus QR -> Conductor scans QR and starts trip (ACTIVE) -> Passenger finds live bus (TN-49-N-1023, Rs15) -> Passenger buys ticket (PAID, PNR NIG-20261108-BEE3B6) -> Conductor validates PNR (Boarding Allowed) -> Conductor issues cash ticket (ETM523F22, Rs20) -> Admin dashboard revenue Rs35 (Nov 8) + complaints workflow (3 filed, 1 in review) + stop

CRUD. All steps DB-verified.
